disclabel printer calibration
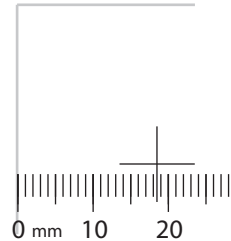

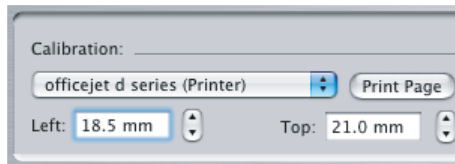

①   note the cross at the upper left of this page

②   cut off the ruler below or use your own

③   measure from the left edge of this page to the vertical part of the cross

④   enter the resulting distance in the *Left* field under *Calibration*
     In our example image to the right, it's 18.5 mm – yours will probably be different

Calibration:
officejet d series (Printer) | Print Page
Left: 18.5 mm   Top: 21.0 mm

⑤   measure from the top edge of this page to the horizontal part of the cross

⑥   enter the resulting distance in the *Top* field under *Calibration*
     In our example image to the right, it's 21 mm – yours will probably be different

Calibration:
officejet d series (Printer) | Print Page
Left: 18.5 mm   Top: 21.0 mm
